GR YARIS
 Mini Guide

Five good reasons to choose the New Toyota GR Yaris

- 1) Developed directly from world rally activity with Tommi Mäkinen Racing
- 2) Second global GR product and homologation special for future WRC activity
- 3) New 1.6-litre three-cylinder turbo engine producing ; 257 BHP/192 kW and 360 Nm of torque. 0-62mph in 5.5s.
- 4) Unique, aerodynamic and light body design; power-to-weight ratio of 4.9 kg/hp
- 5) New lightweight GR-FOUR all-wheel drive system for superior performance

Gazoo Racing	New Engine	Power	Transmission
WRC Homologation Special	1.6L 3 Cylinder Turbo Engine	257 BHP	GR-FOUR 4WD Manual 6

Unique Design

- Unique design with a three-door body and a roof lowered by 91mm - supports WRC aerodynamics
- Frameless doors add to the coupe look
- At the front the grille design and spoiler express the car's authentic GR status
- At the rear the wide tread and muscular wings accommodate 18-inch alloy wheels

Performance Braking

- 356 mm grooved front discs with four-pot callipers
- Engineered to cope with rigorous demands of high-speed track and special stage driving with high-level heat capacity

Circuit Pack

- 2 grades available including GR Yaris & GR Yaris Circuit Pack
- In addition to GR Yaris, the Circuit Pack includes:
 - Two Torsen limited-slip differentials
 - Performance-tuned suspension
 - 18-inch forged alloy wheels with Michelin Pilot Sport 4s 225/40R18 tyres.
 - Red brake callipers

Motomachi Factory

- The birthplace of legends such as the Supra A80, Motomachi is now home to the first GR production line, ready to hand-build a hot hatch like no other.
- Being handmade by experts means that each GR Yaris takes over 10 times longer to be assembled than a conventional mass-produced car. The production line has been streamlined for performance, with elements such as body alignment checks and additional welding ensuring that each GR Yaris is built with meticulous care and attention.
